

IIBEC ARIZONA

MEMBERSHIP EDUCATION EVENT

Hosted by: **W P L**
Weatherization Partners, Ltd.

Join **Kim Simpson** and the **Weatherization Partners** team at Intertek for a two hour session on waterproofing details for wall systems, fenestrations, and other building components. A mock wall will be on site for a hands-on demonstration on flashing window openings, doors, and general penetrations, like PTAC units. Presentation good for 1 AIA Continuing Education credit ~ lunch provided so please RSVP.

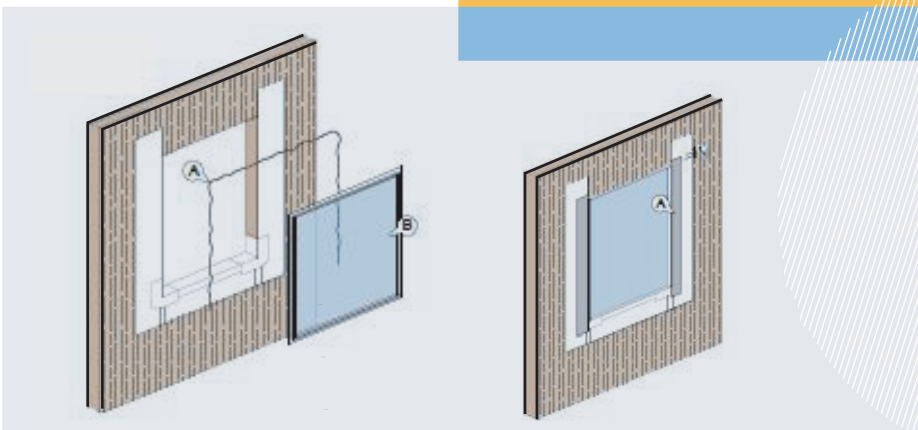

Learning Objectives:

- Understand the references for Flashing Materials and Window and Door Installation requirements in the ICC Codes
- Be familiarized with the key AAMA Standards for various type of flashing materials and their Code reference
- Learn about the industry standards developed for the Installation of Windows & Doors and their respective areas of focus
- Observe and understand how the principles and standards discussed are practically applied to real-world applications

THURSDAY, MAY 18, 2023, noon - 2pm
